

APPENDIX 2

RF Legal Requirements for Road Transport

Purpose

To outline legislative requirements that define a legal framework for road safety in the RF and establish:

- key requirements to ensure road safety, including competency and occupational fitness of employees directly involved transport operation;
- requirements on medical support in road safety;
- requirements on the content of driver inductions and arrangements to prepare staff for safe work and vehicles for safe operation;
- obligation to prepare an RTI Prevention Plan, periodically monitor its implementation, and thoroughly analyse RTI causes and conditions;
- cargo transportation safety requirements.

This document is intended to help verify compliance with legislation, corporate standards and technical requirements, as well as to provide consultations to Managers.

Who is this for?

- *Managers;*
- *Contract Holders of Contracts with Transport Elements*
- *Specialists in Road Transport operation;*
- *Drivers.*

The overall general legal requirements relating to Road Transport are identified in the following Russian Federation (RF) legislative documents
