

**APPENDIX 6****Fisheries, Hunting and Gathering****Purpose**

To manage *Risks*<sup>1</sup> of actual and potential effects on fisheries arising from environmental aspects of *Sakhalin Energy Assets and Activities*, and potential Risks of hunting and gathering.

**Who is this for?**

- *Project Managers, Contract Holders and Contractors* with work scope including major project or project expansion construction activities.

**Requirements applicable to major onshore project or major project expansion construction**

1. **Hunting, fishing and gathering during construction.** Ensure that personnel engaged in project activities are made aware of commitments made by Sakhalin Energy with respect to hunting, gathering and fishing and that these commitments will be enforced.
  - a. During the construction period, in northern and central Sakhalin (north of Dolinsk and Tomari districts), project workers shall not be permitted to fish, gather or hunt.
  - b. In southern Sakhalin (Dolinsk and Tomari districts and to the south), project workers may fish with a licence, but not gather or hunt.
  - c. Contractors shall be required to ensure that construction personnel are fully briefed about issues related to fauna, and particularly the measures to be taken to ensure that unauthorised hunting does not take place.
  - d. The keeping of pets on construction sites shall also be prohibited.
  - e. Feeding of the wild animals is strictly prohibited.
  - f. Hunting, fishing and gathering will be allowed for the Sakhalin local construction workforce if it is outside working time, not wearing their working clothes, and with the proper permit.
  - g. Sakhalin Energy shall review this policy with the relevant Russian authorities to identify any potentially adverse effects as appropriate. The Sakhalin Energy CLO and Social Performance Team shall independently monitor community responses to the Sakhalin Energy policy.
2. Specific measures to safeguard the hydrological and sedimentological characteristics and conditions of watercourses that support important freshwater fisheries and fish species are specified in the River Crossings Specification. [EIA VOL 4, Section 3.7.1]
