- Environmental impact management / eagle monitoring in the potential impact area of Sakhalin Energy facilities.
- Social programmes implemented by Sakhalin Energy.
- Grievance Procedure.
- Questions and Answers

At the beginning of the meeting, N. V. Gonchar warned those present that the meeting would be audio recorded for the subsequent drawing up of the minutes.

N. V. Gonchar began the presentation with the information about the benefits from the Sakhalin-2 project implementation for the Russian Federation and the Sakhalin Oblast. Then she talked about the northern production facilities of Sakhalin Energy (three offshore platforms, the OPF, the trans-Sakhalin pipeline system and its protection, and the Pipeline Maintenance Depots (PMDs).

V. A. Skurikhin spoke about the OPFC construction project, paying particular attention to the temporary beach landing facility in the Lunsky Bay area for unloading large-sized heavy equipment during the OPFC construction.

T. V. Zvezdov presented information on industrial environmental control and monitoring programme, as well as the biodiversity conservation programme, waste management and the Company's preparedness for emergency situations. Information on eagle monitoring in the potential impact area of Sakhalin Energy facilities was presented separately.

N. V. Gonchar spoke about the social programmes run by Sakhalin Energy, focusing on the activities held in 2019 as part of the International Year of Indigenous Languages, proclaimed by the UN General Assembly.

N. V. Gonchar reminded the meeting participants about the Grievance Procedure.

No questions were asked. The participants thanked the speakers for the interesting presentations.

At the end of the meeting, Natalya Gonchar reminded the attendees that they could make their suggestions and ask questions for the next meeting by contacting specialists whose contact details are listed on the Company's website, and also suggested that they leave their feedback on the meeting in the feedback questionnaire.
