Ref. No. 2020-OUT-Y-22-00219

Contractors and Subcontractors working for Sakhalin Energy Investment Company Ltd.

Re.: Restrictions due to Coronavirus

Hereby Sakhalin Energy Investment Company Ltd. (hereinafter – Sakhalin Energy, the Company) expresses its respect for input into development of the Sakhalin-2 project.

Sakhalin Energy informs you that due to the continuing outbreak and rapid spread of the disease caused by a new type of coronavirus (COVID-19), including recent outbreaks in Italy and Iran and rising incidence in South Korea, the Russian authorities have introduced additional controls:

- Limiting air traffic to/from South Korea and Japan;
- Recommending not to travel to Italy.

In light of this, and in order to avoid any potential impact to service provision at Company's site Company has decided to introduce the restriction on Company's and Contractors' and Subcontractors' personnel movements, i.e.:

1. All business travel into Sakhalin earlier planned through South Korea, China, Japan, Iran or Italy shall be changed, e.g. through Moscow;
2. Personnel who have traveled to China, Italy, Iran, South Korea or Japan even for personal trips, are not authorized to enter Company worksite until at least 14 days after exiting any of those countries;
3. Alternative manpower mobilization backup option shall be developed and provided to Company for review, preferable option is Russian manpower engagement;
4. Personnel will be allowed to work at Company's assets in good health only.

The Company has taken measures to prevent the spread of the virus at the onshore and offshore assets.

Sakhalin Energy expects that Contractors and Subcontractors comply with all developed restrictions and rules to ensure safety of their employees, including cascading these recommendations to own staff for planning of vacation periods and locations.

This recommendation is effective as of 4 March 2020.

Yours sincerely,

Roman Sinitskiy
Deputy Finance Director,
Head of Supply Chain Management Department
